

Xstream System for display glass

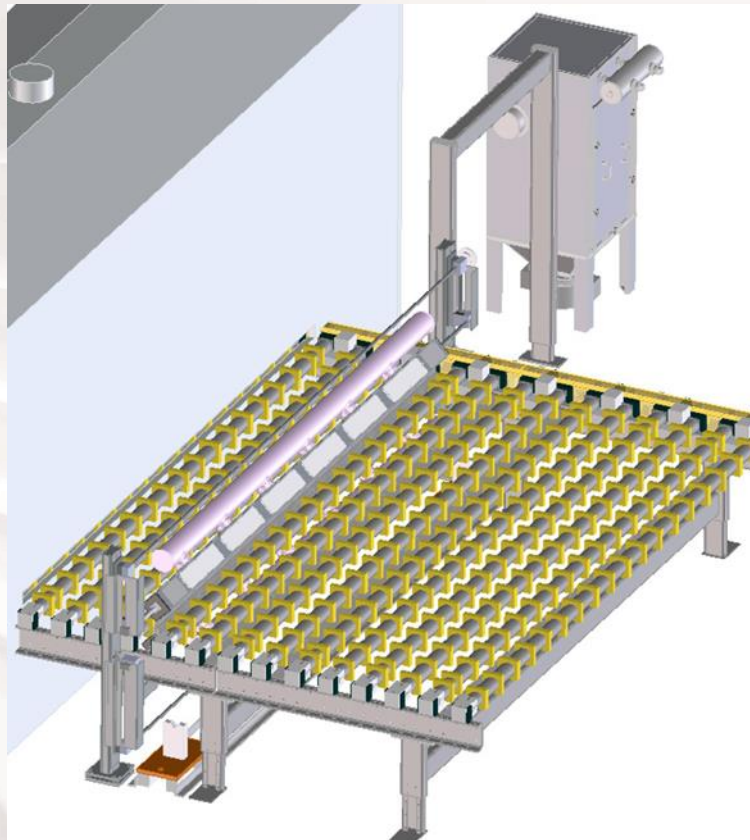

**ULTRA efficient
dust removal**

**Highest product
quality**

**Perfect
neutralizing**

Layout

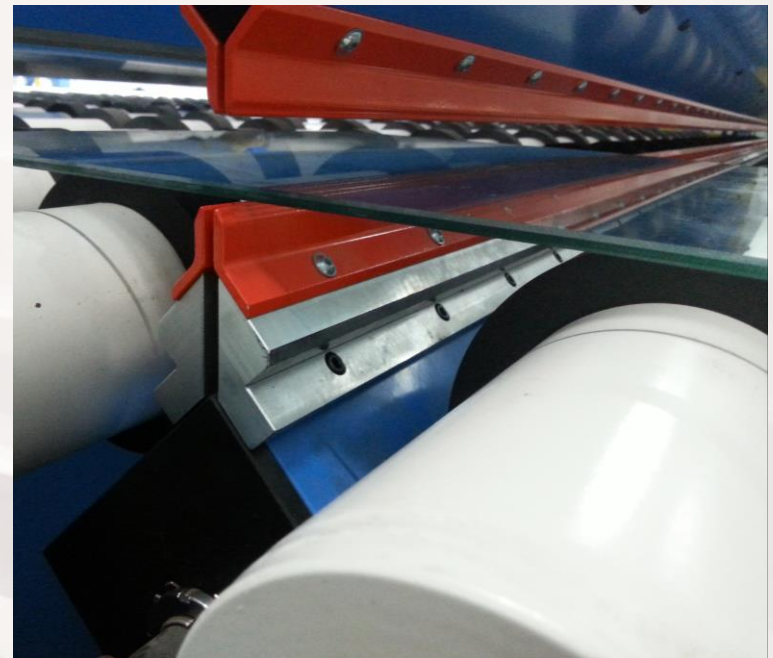

2 x Xstream dust
removal module

2 x iONstream FUSION,
6kV, electrostatic
neutralising bars
Application working
width 4500mm

Installation Key Data

- Non contact surface cleaning
- High velocity vacuum air flow
- AUTO^{DC} ionisation system
- **4500mm** working width
- Compact position
- Wear- and maintenance free
- Standalone- and network capable
- Microprocessor controlled

Grenzebach Glass Production Line

Company profile:

Grenzebach is a world-wide leader specializing in the automation of industrial production lines. By providing services encompassing the entire life cycle of a project, Grenzebach's tailor-made automation solutions have a positive impact globally in glass and building material manufacturing as well as intralogistics. Many years of experience, continuous development, and sustainable support services are what makes Grenzebach one of the most preferred partners world-wide. 3000 installed lines in 55 countries prove that the Grenzebach name stands for quality and reliability. Amazingly, 90 percent of Grenzebach's products are for export which reflects that the medium sized family-owned company from Hamlar is a global player in the industrial automation.
